

Follow-Up Care

How ongoing visits work. Remain in Alabama for the duration of treatment.

Visit schedule

- Initial visit, one-month follow-up, then every 3 months - or sooner if needed.

Prepare

- Note side effects, energy, appetite, weight trend, and questions. Confirm medications and Alabama residency.

Your other clinicians

- Continue with your primary care physician and specialists. Keep them informed of SVH-prescribed medications.

Alabama residency

- You must live in Alabama and remain in Alabama during treatment. Tell us if you leave the state.
